Andrelândia – MG | +55 (35) 99771-4779 | [diogo.ataidee@gmail.com](mailto:diogo.ataidee@gmail.com)

Portfolio: [diogoataide.dev](https://diogoataide.dev) GitHub: [github.com/diatsilva007](https://github.com/diatsilva007) LinkedIn: [linkedin.com/in/diatsilva](https://linkedin.com/in/diatsilva)

## OBJECTIVE

Act as a Junior Full Stack Developer or Junior Software Engineer, contributing with modern and scalable solutions.

## PROFESSIONAL SUMMARY

Postgraduate degree in Software Engineering with practical experience in web and mobile application development. Experience with React, Node.js, SQL/NoSQL databases, REST APIs, Git, and Docker. Interest in information security, continuous delivery, and software engineering best practices.

## PROFESSIONAL EXPERIENCE

### Software Engineer

#### Freelancer

Jan/2024 – Present

- Creation of websites and systems on demand with React and Node.js
- Serving small businesses and service providers
- Deployment with Docker and hosting on cloud servers (Vercel, Render)

### Technical Support Intern

#### Thomson Reuters

Jun/2027 to Jun/2018

- Technical support for users of the Legal One legal system, providing agile, high-quality support to resolve queries and incidents.
- Support in implementing and training new customers in the use of the system, contributing to the adaptation and success of operations.
- Diagnosis and analysis of problems related to databases, system performance, and network configurations.
- Direct communication with development and QA teams to report bugs and propose improvements based on user feedback.
- Participation in testing routines and approvals of new features.

## EDUCATION

Postgraduate Degree in Software Engineering  
Estácio – June 2023 to June 2024

Bachelor's Degree in Information Systems  
Estácio – December 2018 to December 2022

## PROJECTS

### **Foco Zero (Dengue Mapping Application)**

I developed a Progressive Web App (PWA) for mapping and managing dengue outbreaks, with offline support, role-based authentication, and a dashboard for data analysis with heat maps.

Technologies: React (Hooks, Context API), Node.js, Express, PostgreSQL, Leaflet, Chart.js, Workbox, Jest, and React Testing Library.

Deploy: [Foco Zero - Dengue Control](#) | GitHub: [Foco Zero - Dengue Control](#)

### **Mega Dogão Carioca**

Institutional website with online orders integrated with WhatsApp, displaying menu and contact information in a responsive layout.

Technologies: React, Tailwind CSS, JavaScript

Deploy: [Mega Dogão Carioca](#) | GitHub: [Mega Dogão Carioca](#)

Note: For more projects, visit: [Portfolio](#) ou [GitHub](#)

## SKILLS

- Front-End: React.js, HTML5, CSS3, Tailwind CSS, JavaScript, TypeScript
- Back-End: Node.js, Express.js, REST APIs, JWT, Data Validation
- Databases: PostgreSQL, MongoDB
- DevOps: Git, GitHub, Docker, GitHub Actions (CI/CD)

## LANGUAGES

- English – Intermediate
- Spanish – Intermediate
- Portuguese – Fluent or Native
